

# STATE *of the* ARC

SUMMER 2015 BUILDING SOLUTIONS

## It Is A Busy Time At ARC Construction

### **Princeton Façades**

Currently, ARC is working to help revitalize the Princeton Courthouse Square in downtown Princeton, Indiana. We are restoring 18 building fronts, including everything from awnings to storefront reconstruction.

### **Princeton Middle School**

Along with the Princeton downtown, ARC has started work on the demolition and renovation of a 95,000-square-foot project that will relocate Princeton 6th-8th grades to the former Princeton High School location. The project also includes new offices for the school administration.

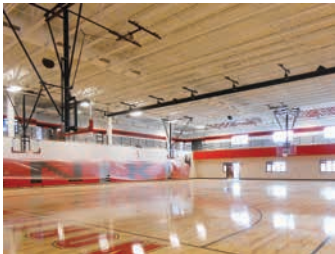

### **Gibson County Fairgrounds 4H Building**

ARC has also been awarded the Gibson County Fairgrounds 4H project, which will include renovation and expansion of the Exhibit Building and coinciding infrastructure on the north side of the fairgrounds.

### **Central High School Tennis Courts**

ARC removed an existing parking lot to add six tennis courts across from Central High School's football stadium on First Avenue.

### **North Knox High School Gymnasium**

ARC constructed a new auxiliary gymnasium at North Knox High School in Bicknell, Indiana. The new 32,000-square-foot gymnasium also has an indoor track, new locker rooms and upper level classrooms.

### **Wesselman's Nature Center Entranceway**

ARC constructed an entranceway for the nature preserve at Wesselman's Park in Evansville. In addition, ARC constructed a new parking lot and made various site improvements to the Wesselman Woods Nature Center.

### **Wabash General Hospital Surgery Suite**

ARC recently completed work on a surgery suite addition at Wabash General Hospital. The project included surgery suites, new post-op recovery rooms and a new loading dock. ARC has also contracted with Wabash General Hospital to add onto their existing parking lot and renovate some interior portions of the hospital.

### **Eastland Mall Entrances**

ARC has recently completed renovation work on the Eastland Mall pedestrian entryways accessing the mall common area. A new paint scheme, natural stone and exterior wall tiles, as well as updated LED lighting and signage, make for a spectacular addition to the Eastland Mall's exterior.

## ARC Launches New And Improved Website

ARC has been working behind-the-scenes with Lieberman Technologies to create ARC's new website. The new website, *arc-construction.com*, now holds a portfolio of all the recent projects ARC has completed. Its easy access design allows users to view jobs based on type and to review the size and scope of projects, plus it allows subcontractors to quickly and easily access plan room specs.

The new website is also mobile-friendly and can be accessed from your smartphone or tablet. It launched March 16, 2015, so check out the new website for yourself. Head over to *arc-construction.com* and find out what ARC can do for you!
